

While you wait for your test results

If you are symptomatic or are a close contact of someone who has tested positive for COVID-19, you should start a quarantine and wait for more information

Quarantine lasts until 14 days after the date of your last exposure, but may continue longer if you start experiencing symptoms

Wipe down surfaces that you touch with household cleaners, or bleach diluted in water. COVID-19 can live on surfaces for days

Do not share your things with others in your house.

Do not have visitors in your home.

Stay home except for urgent medical care. If you must leave, wear a mask. Make sure to call your doctor before you seek medical care. Do not take public transportation, ride shares, or taxis. If you do not have a car and need emergency transport call **911**.

Wash your hands throughout the day with soap and water for at least 20 seconds.

Keep 6 feet distance from other people at all times, even in your home.

If possible, use a separate bedroom and bathroom.

Call your doctor if you start feeling sick. Call **911** if you have an emergency.
